5. Legal form

Public procurements procedure for supplies in above-the-limit regime contracted in open proceedings.

6. List of suppliers participating in the procedure

Reasoning:

According to Sec. 122 (2) PPA, evaluation was not conducted since only one bid was submitted. The supplier, who submitted the bid, met all the conditions for participation in the procurement procedure for the Public Contract. Therefore, the Supplier was selected for the contract conclusion.

9. Sub-suppliers

The Supplier will perform the subject matter of the Public Contract without sub-suppliers.

10. Reasoning for not dividing Public Contract into parts

The reason for this Public Contract not being divided into parts is the fact that the subject of the Public Contract represents a homogenous whole lacking any classification by individual domains; the Contracting Authority anticipates that the complete subject of the Public Contract will be executed fully by one single Supplier meeting the terms and conditions hereof.

11. Reference to the published notice on the results of the procurement procedure

Notice on the results of the procurement procedure has been published in the Czech Journal on Public Procurement under No.: F2021-008306 as well as in TED under No.: 2021/S 050 - 124202.
